Major Changes	
> HIT280 is now co-op course for one year certificates	
> HIM114 is not needed if students complete all three of the 200 level coding classes (HIM270, HIM271, HIM2730)	
The reason CS120 is also required is to keep the total AAS HIM degree at 90 credits minimum.	
> BT120 is being removed as an option from BHC certificate	
Will accept it if completed prior to 2020/2021
